4. Regional Training Update
 - All up-to-date information can be found on the website. The flier has been finalized and can be downloaded via website and should be distributed to all interested individuals. Registration is now live on the website and we should make sure interested staff/colleagues get registered ASAP. There is no early bird special this year because of the delay in the website redesign. Vendors are still needed, there are still 3 openings left. Caleb will email list of participating vendors (one is an erosion control company and another is a stabilization company). Tosha reached out to Aqua Natural Solutions, another potential vendor.
5. NPDES Phase II Permit Update

- Delta RMP Update by Greg – Not much updates, still working on annual workplan.
- CASQA Construction Subcommittee Update by Caleb – Many are having issues filing NOTs. CASQA is addressing the issue.
